

## ENVIRONMENTAL MANAGEMENT SYSTEM

Environmental Policy
Environmental Policy Statement
Revision 01, 10-26-2011

### ENVIRONMENTAL POLICY STATEMENT

For over one hundred years, Calbag Metals has pursued excellence in all aspects of its operations, striving to minimize adverse environmental impacts at its site and to play a leadership role in environmentally-responsible performance within the scrap metal recycling industry.

Calbag's values are reflected in our commitment to:

- Integrate environmental values into our decision making processes.
- Prevent pollution.
- Minimize the environmental impact of waste generation by encouraging our employees, suppliers and customers to reduce, re-use and recycle.
- Continuously improve our environmental performance and integrate recognized environmental best management practices into our business operations.
- Overcome the challenges inherent in metals recycling using the availability of state-of-the-art engineering solutions.
- Maintain our certification to ISO 14001 through rigorous monitoring and review of performance.
- Comply with all pertinent requirements, including laws and regulations and other requirements to which we subscribe which relate to our environmental aspects.
- Communicate externally about its significant environmental aspects.

To meet our commitments Calbag will:

- Provide employees with the knowledge and training to make environmentally sound decisions throughout the work place.
- Monitor key objectives and targets for managing our environmental performance.
- Communicate internally and externally our environmental policy and performance with our employees, suppliers and customers.
- Review our environmental policy regularly.
- Work closely with regulatory agencies to build a partnership with governmental authorities to protect and improve our environment.
- Make this statement of policy available to the public.
